

Uzair Mukhtar

Data Analyst | Reporting and BI Analyst | Junior Data and AI Analyst

Pakistan | +92 306 134 3176 | uzairmukhtar176@gmail.com | LinkedIn | GitHub | Open to remote and international contractor roles

PROFESSIONAL SUMMARY

Data Analyst with one year of hands-on experience delivering live dashboards, SQL and Python analysis, automated data pipelines, and KPI reporting. Experienced in turning finance, trade, judiciary, and customer data into clear stakeholder-ready insights using Excel, Power BI, Tableau, Streamlit, and PostgreSQL/Supabase. Targeting remote Data Analyst, Reporting Analyst, BI Analyst, Business Analyst, and junior data or AI roles.

TECHNICAL SKILLS

Analysis and BI: SQL, Excel, Google Sheets, Power BI, Tableau, KPI reporting, dashboard design, data cleaning, EDA, statistics, business analysis

Programming and Data: Python, Pandas, NumPy, PostgreSQL, MySQL, Supabase, REST APIs, web scraping, data pipelines, automation

Tools: Streamlit, Plotly, scikit-learn, BeautifulSoup, Requests, Jupyter Notebook, Git, VS Code, SharePoint

PROFESSIONAL EXPERIENCE

Data Analyst | Gallup Pakistan - Digital Analytics

Nov 2025 - Jul 2026

- Accomplished delivery of **3 live analytics dashboards** across consumer confidence, Karachi Port trade, and Islamabad High Court data by building Streamlit applications with KPI-driven filters, views, and reporting workflows.
- Accomplished analysis of **70+ months** of Karachi Port trade activity by transforming maritime data into comparative time-series views and automated KPIs that helped stakeholders identify import and export trends.
- Accomplished faster, repeatable refreshes across live dashboard workflows by building Python scrapers with BeautifulSoup and Requests, then integrating SQL queries and APIs to synchronize source data.
- Accomplished more reliable stakeholder reporting by cleaning and transforming data with Pandas, Excel, and Google Sheets; audited dashboard inventory and resolved data-coverage gaps across SharePoint and web assets.
- Accomplished searchable access to court-schedule data by connecting a PostgreSQL-backed dashboard to live records, enabling case, bench, advocate, and KPI filtering.

Data Analyst Intern | Omnific Developers

Aug 2025 - Oct 2025

- Accomplished end-to-end analysis of **9,000+ retail sales records** using SQL and Excel, measuring regional performance, product trends, and KPIs to support business intelligence reporting.
- Accomplished a stakeholder-ready YouTube trends dashboard by using Tableau to visualize category performance, views, engagement ratios, and regional patterns for content strategy decisions.
- Accomplished clearer data-driven recommendations from real-world datasets by performing EDA with Python, Pandas, and NumPy to surface trends, patterns, and outliers.

SELECTED PROJECTS

Business Intelligence and Sales Analytics Dashboard | [Project link](#)

- Analyzed **9,000+ sales records** with SQL and Python and created an interactive Tableau dashboard for revenue, profit, product, and regional performance.

Islamabad High Court Cause List Dashboard | [Live dashboard](#)

- Built an automated Python and Supabase dashboard that scrapes daily cause-list information and supports searchable, SQL-driven judicial data views.

Karachi Port Import and Export Analytics | [Live dashboard](#)

- Visualized **70+ months** of port data across bulk, dry, and liquid cargo to monitor trade patterns and generate performance KPIs.

SBP Consumer Confidence Survey Dashboard | [Live dashboard](#)

- Transformed **10+ years** of monthly survey records into interactive trend analysis of consumer confidence, expectations, and macroeconomic sentiment.

Cyclistic Bike-Share Analysis

- Analyzed **5M+ trip records** across 12 months with SQL and Python and produced **3 data-driven strategies** to improve membership conversion.

EDUCATION AND CERTIFICATIONS

BS Computer Science, COMSATS University Islamabad - Vehari, Pakistan | Feb 2022 - Feb 2026 | CGPA: 3.19

Google Data Analytics Professional Certificate - Google | Feb 2026

Introduction to Data Analytics - Meta | Feb 2026

Data Analytics Course - Code With Harry | Sep 2025
